A4 UV Printer Cylinder Printer – Precision Custom Printing on Cylindrical and Curved Surfaces

The A4 UV Printer Cylinder Printer is a highly versatile and compact printing solution designed for custom printing on cylindrical and curved surfaces. Whether you're printing on phone cases, bottles, mugs, pens, or other unique products, this innovative printer offers high-resolution prints with vibrant color accuracy, perfect for creating personalized and standout products.

Utilizing advanced LED UV technology, this printer cures ink instantly under UV light, ensuring that your prints are durable, scratch-resistant, and fade-proof. This makes it ideal for products that are frequently handled or exposed to wear. The instant curing process also guarantees precise, sharp prints, even on the most challenging surfaces.

Ideal for businesses specializing in promotional products, custom gifts, and personalized merchandise, the A4 UV Printer Cylinder Printer is capable of printing on a wide range of materials including plastics, glass, ceramics, and metals. Its easy-to-use controls, compact design, and affordable price point make it a cost-effective and efficient solution for small to medium-sized businesses looking to expand their custom product offerings and enhance their printing capabilities.

Unlock the potential for high-quality, personalized prints with the A4 UV Printer Cylinder Printer—the perfect tool for businesses that want to make an impression with customized, durable prints on cylindrical and curved surfaces.

Key Features:

- **Automatic Height Adjustment:** The printer features a full automatic height adjustment system for precise printing on varied surfaces, ensuring optimal print quality every time.
- **Automatic Tray Movement:** Effortless movement of the tray for continuous, efficient printing, reducing manual input and increasing productivity.
- **Cylinder Printing:** The A4 UV Printer Cylinder Printer is the first small A4 UV printer that can print directly on cylindrical objects like bottles, mugs, and pens, expanding your customization options.
- **Versatile Ink Options:** Support for Varnish ink and White ink, providing added customization and flexibility for printing on dark or transparent surfaces.
- **CISS Ink Supply System:** Equipped with a Continuous Ink Supply System (CISS) and White Ink Stirring System, ensuring smooth, consistent ink flow and preventing clogging, especially when printing with white ink.
- **High Resolution:** Achieve high-resolution prints with precise positioning, delivering vibrant, crisp designs for all your custom printing needs.
- **User-Friendly Controls:** Easy to operate, with intuitive settings that make it simple for businesses of any size to produce professional-quality prints quickly.

Specifications:

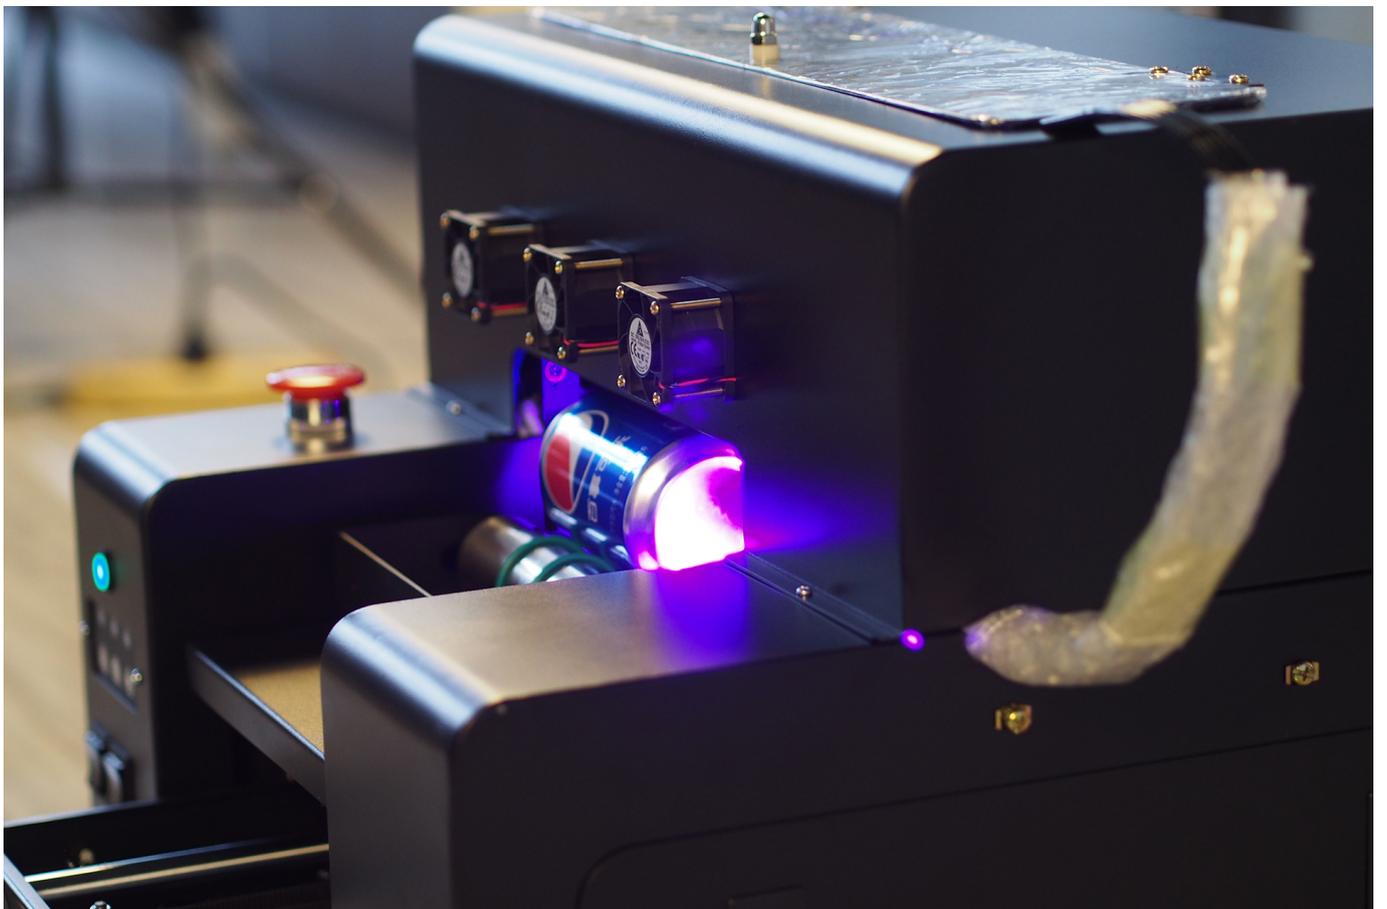

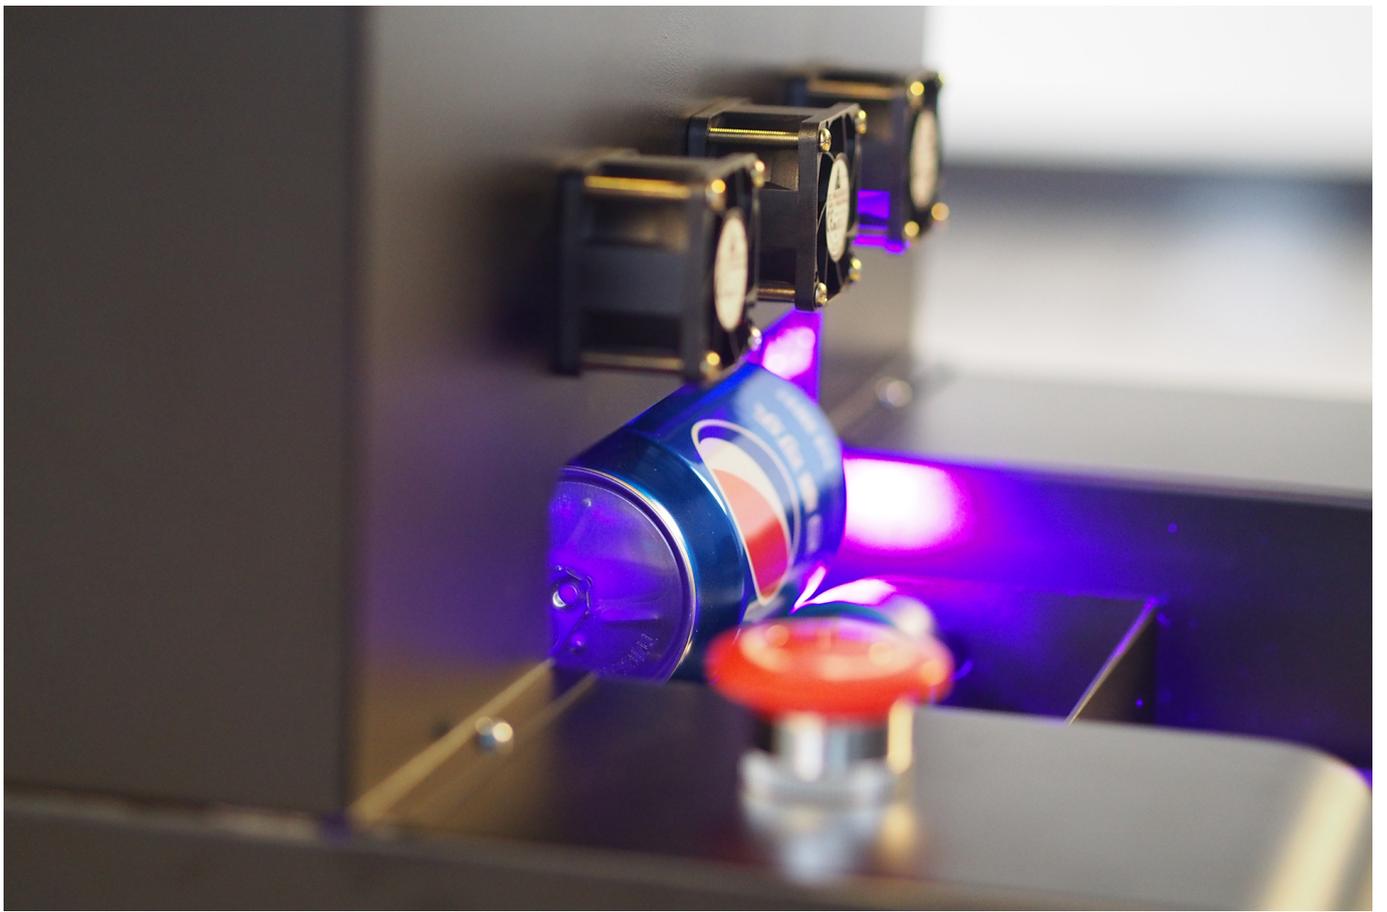

- Model Numbers: GF85V4 / GF60V4
- Ink Type: LED UV Ink
- Printer Head: EPSON L805 or advanced XP600 head (XP600 offers faster printing speeds)
- Ink Color: CMYK + White + Varnish or CMYK + White + White (WW)
- Print Size: 22 x 33 cm
- Print Thickness: Flat: 0-15 cm / Cylinder: Diameter 2-11 cm
