Coffee Printer - High-Resolution Edible Printing on Coffee and Beverages

The Coffee Printer is an advanced beverage decoration machine that enables high-resolution, edible printing directly onto drinks like coffee, milk, milkshakes, and more. Designed for modern cafes, coffee shops, dessert bars, and catering services, this compact and efficient printer allows you to add stunning visuals, logos, messages, or promotional graphics to the foam or surface of beverages—enhancing presentation and offering a unique customer experience.

Using safe, food-grade edible ink, the printer transfers vivid and precise designs within seconds. Whether it's a customer's name, a custom image, or your café's branding, this printer turns every cup into a creative expression that attracts attention and boosts customer engagement.

With an intuitive built-in touch screen, automatic height adjustment, and rapid printing speeds, the Coffee Printer is easy to operate and ideal for high-traffic environments. Its sleek and compact design makes it easy to fit into any counter space, while the durable structure ensures long-term performance.

Perfect for hospitality businesses that want to stand out through innovation and personalization, the Coffee Printer is the go-to solution for turning everyday drinks into memorable moments.

Key Features:

- **Edible Printing Technology:** Prints directly on coffee foam, milk foam, milkshakes, and other drink surfaces using food-safe ink.
- **Fast Print Speed:** Create eye-catching prints in just 10–30 seconds per cup, perfect for high-volume use.
- **Precise Height Adjustment:** Automatic adjustment system with infrared sensors ensures accurate printing on different cup sizes and heights.
- **Compact & Stylish Design:** Sleek, space-saving construction fits effortlessly into any café or restaurant environment.
- **Easy-to-Use Interface:** Comes with pre-installed software on a built-in touchscreen—ready to operate without additional setup.
- **Versatile Applications:** Supports printing not only on beverages but also on edible items like cookies, chocolates, and small cakes.

Specifications:

- **Model Number:** GF410S
- **Technology:** Edible Inkjet Printing

-
