Cake & Pizza Printer - Custom Edible Printing on Cakes, Pizzas, Cookies, and More

The Cake & Pizza Printer is a versatile edible inkjet printing machine specially designed for bakeries, pizzerias, cafes, and catering businesses looking to deliver personalized, visually striking food products. Whether you're printing custom images on birthday cakes, fun messages on pizzas, or branded logos on cookies, this printer provides the creative freedom to transform ordinary food into unforgettable, customized delights.

Equipped with advanced edible inkjet technology, the printer uses food-safe CMYK inks to produce vibrant, high-resolution prints directly onto a wide range of edible surfaces. With its intelligent infrared-controlled automatic height adjustment system, it ensures precise positioning and excellent results, even on items with varying thicknesses.

Compact and easy to operate, the Cake & Pizza Printer is ideal for small to medium-sized food businesses that want to offer high-value customization services without the need for complex equipment or extensive training. The user-friendly software allows direct image capture, editing, resizing, and access to a built-in library, making personalized printing easier than ever.

This printer is more than just a creative tool—it's a marketing asset that enhances your brand and helps you attract attention in a competitive market. Ideal for birthdays, weddings, corporate events, holiday promotions, or day-to-day surprises.

Key Features:

- **Multifunctional Edible Printing:** Print directly on cakes, pizzas, cookies, chocolate, small pastries, and more.
- **Full-Color Edible Ink:** Uses safe and vibrant edible CMYK inks for stunning, detailed results.
- **Fast Printing:** Print a full-color image in just 10–20 seconds.
- **A4 Print Area:** Supports prints up to 19 x 21 cm—ideal for most cakes and pizzas.
- **Automatic Height Adjustment:** Infrared-controlled system detects item height for precise print alignment.
- **Built-in Design Software:** Includes image capture, editing, resizing, and library support for convenience.
- **User-Friendly Operation:** Easy for staff to learn and operate—no special skills required.
- **Compact Design:** Small footprint makes it easy to fit into existing kitchen or bakery spaces.
