

A3 Roll DTF Printer T-shirt Printing Machine**\$990-1180**

A3 Roll DTF Printer T-shirt Printing Machine – High-Quality Custom Apparel and Accessories Printing

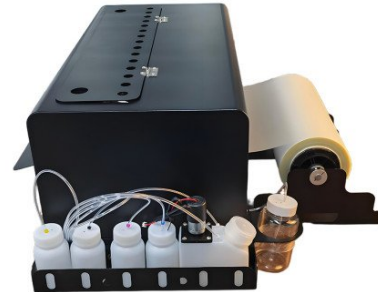

The A3 Roll DTF Printer T-shirt Printing Machine is an advanced, high-performance solution designed for businesses looking to produce premium custom apparel and accessories. Featuring cutting-edge Direct-to-Film (DTF) technology, this printer enables vibrant, durable, and long-lasting prints on a wide range of fabrics, including cotton, polyester, and blends. Ideal for T-shirts, hoodies, hats, bags, and other custom garment creations, this printer handles intricate designs, logos, and artwork with ease.

With support for roll-fed media, the A3 Roll DTF Printer enhances printing efficiency, especially for high-volume orders. It prints directly onto transfer films, which are then heat-pressed onto the fabric, ensuring precise, high-quality results. Known for its sharp color reproduction and excellent wash resistance, this printer is perfect for creating custom promotional items, branded merchandise, and fashion-forward custom apparel.

Whether you're a small business or a large manufacturer, this printer offers an affordable, user-friendly, and efficient way to expand your product range and cater to the growing demand for custom clothing. Its compact design and intuitive interface make it suitable for both beginners and experienced operators, allowing you to unlock new business opportunities in the custom garment printing market.

We not only provide the A3 Roll DTF Printer but also offer a more compact A4 Roll Printer option for smaller-scale needs:

**Specifications:**

- Printer Model: GF60TF/GF85TF
- Printhead: EPSON XP600 Head or EPSON L805
- Printing Width: A3 size, supports both unidirectional and bidirectional printing
- Maximum Printing Width: 330mm
- Machine Dimensions: 620mm (L) × 345mm (W) × 292mm (H)
- Net Weight: 18kg
- Packaging Dimensions: 695mm (L) × 500mm (W) × 343mm (H)
- Gross Weight (including wooden case): 27kg
- Driver Installation: EPSON L1800 / XP600
- Software Support: RIP 10.3

Key Advantages:

- **No Reset or Chip Issues:** Avoids the need for reset or chip resetting that can occur with L1800/1390 models.
- **Reduced Failure Rate:** Eliminates sensor errors like double flashing, common in L1800 models, ensuring smoother operation.
- **Affordable and Efficient:** The printer's independently developed motherboard offers cost savings over the L1800, with easily accessible stock.
- **Continuous Printing Support:** Capable of printing up to 100 meters of roll film without interruption.
- **Seamless Film Switching:** Easily switches between single-sheet and roll film printing, providing greater flexibility.
- **No Film Slippage:** Prevents film slippage during printing and supports PET films of any thickness, including double-sided matte films.
- **Affordable Printheads:** The L805 printhead is more affordable and easier to source than the L1800 printhead, helping to lower overall maintenance costs.
- **White Ink Mixer Included:** Features an automatic timed and intermittent stirring system for optimal white ink performance.
- **Paper Shortage Protection:** Automatically stops printing when no paper is detected, preventing waste and ensuring efficiency.
