A4 DTF Printer – Compact & Efficient Direct-to-Film Printing for Apparel Customization

The A4 DTF Printer is a compact and highly effective solution designed for businesses and creators looking to produce high-quality custom prints on a variety of fabrics. Ideal for T-shirts, hoodies, tote bags, hats, and more, this Direct-to-Film (DTF) printer ensures vibrant, durable designs that stand out. Unlike traditional printing methods, DTF technology delivers superior color accuracy, flexibility, and long-lasting results on both light and dark textiles.

Tailored for small businesses, startup brands, and DIY creators, the A4 DTF Printer offers an intuitive, easy-to-use printing process that doesn't require complex setup or maintenance. It supports white ink printing, allowing for bold, clear designs on dark fabrics. With its high-resolution output, the printer ensures fine details, rich colors, and durable prints that are stretchable, crack-resistant, and washable, providing long-term reliability and customer satisfaction.

The efficient workflow of the A4 DTF Printer simplifies the printing process. Simply print your design onto a special transfer film, apply adhesive powder, and heat press it onto your fabric. This eliminates the need for expensive pretreatment and offers greater versatility than traditional DTG or sublimation printing methods.

Perfect for small businesses, promotional product makers, or individuals looking to expand their customization options, the A4 DTF Printer is an affordable yet professional solution for high-quality custom apparel printing with minimal effort.

Key Features:

- **Compact A4 Size:** Ideal for small spaces and startup businesses
- **Vibrant, High-Resolution Prints:** Produces sharp, colorful, and detailed designs
- **White Ink Support:** Enables printing on dark fabrics with excellent opacity
- **Durable & Flexible Prints:** Wash-resistant, crack-proof, and stretchable
- **Easy-to-Use Process:** No pretreatment required, simple printing and heat transfer

Take your custom apparel printing to the next level with the A4 DTF Printer—your reliable and cost-effective solution for high-quality textile decoration.

Advantages:

- **Self-Developed Motherboard:** Replaces the original EPSON motherboard for improved performance
- **No EPSON Waste Ink Reset:** Eliminates the need for resetting waste ink, reducing maintenance time
- **Reliable Printing Performance:** Prevents sensor malfunctions common in EPSON machines

-
- Roll-to-Roll Printing: Allows for uninterrupted printing, ideal for larger projects
 - Single-Page Printing: Supports both single-page and roll-to-roll printing
 - Automatic Cleaning System: Cleans the ink pump without removing the film, simplifying maintenance
 - No Film Slippage: The film stays in place during printing, regardless of its thickness or whether it's double-sided matte
 - EPSON Structure Preservation: Maintains the EPSON structure while keeping the printer compact
 - White Ink Mixer: Standard white ink mixer system that automatically mixes ink at set intervals
 - Sturdy Packaging: The printer is securely packaged in a steel plate box, with space for one roll of 100-meter long PET film

Specifications:

- Printer Type: A4 Roll DTF Printer
- Printer Nozzle Type: EPSON XP600
- Print Resolution: 1440x1440dpi, 2880x1440dpi, 5760x1440dpi
- Print Speed: Approx. 30 seconds (photo mode)
- Ink Drop Size: 1.5 Microliters
- Print Software: AcroRIP White ver10.3 (Free)
- Maximum Print Width: 21 cm
- Print Interface: USB 2.0 Data Cable
- Color Configuration: Six colors: CMYK LC LM or CMYK+2W
- Ink Supply Method: Continuous Ink Supply System (CISS)
- Operating Temperature: 15°C - 28°C
- Power: 100W
- Voltage/Plug: 110V-220V (International/US/EU/UK/India Standards)
- White Ink Mixer: Included
- Printer Size: 37.5 cm x 40.6 cm x 15 cm
- Net Weight of Printer: 6 kg

-
- Packaging Size: 60 cm x 47 cm x 27 cm
 - Gross Weight: 16 kg
 - Computer Operating System: Win7-11
 - Computer Processor: Intel, AMD

The A4 DTF Printer is the perfect solution for businesses and creators seeking an efficient, affordable, and high-quality method for custom apparel printing. With its user-friendly design and advanced capabilities, it's an excellent choice for taking your textile decoration to the next level.
