## A3 Roll DTF Printer – High-Quality Direct-to-Film Printing for Custom Apparel

The A3 Roll DTF Printer is an advanced, efficient solution designed for businesses looking to produce high-quality custom prints on various fabrics. Perfect for T-shirts, hoodies, hats, and other apparel items, this printer utilizes Direct-to-Film (DTF) technology to create vibrant, long-lasting prints with exceptional detail. Whether you're a small business or a large-scale operation, the A3 Roll DTF Printer offers reliability, speed, and exceptional print quality for all your custom garment printing needs.

Featuring six-color printing (CMYK LC LM + White ink), this printer guarantees vivid colors and superior detail, even on dark fabrics, thanks to the white ink printing capability. The result is sharp, consistent, and durable designs that stand the test of time, making it ideal for custom garment applications. The Continuous Ink Supply System (CISS) ensures continuous, uninterrupted printing, lowering the cost per print and enhancing overall productivity.

Designed for versatility, the A3 Roll DTF Printer supports roll-fed media, making it suitable for both large and small print runs. Whether producing promotional items or high-volume fashion orders, this printer provides efficient, high-quality results. Its user-friendly interface and easy setup process make it a perfect fit for businesses of all sizes.

### Key Features:

- Six-Color Printing: CMYK LC LM + White ink for vibrant, detailed, and accurate designs
- High Resolution: Prints at 5760\*1440 dpi for professional-quality results
- CISS Support: Continuous Ink Supply System for cost-effective, long-duration printing
- Flexible Media Support: Ideal for various fabrics including T-shirts, hats, and other apparel items
- User-Friendly: Easy setup and operation for businesses of any size

Unlock new possibilities in custom garment printing with the A3 Roll DTF Printer—a perfect solution for bringing your designs to life with high-quality, long-lasting results.

---

### Product Details:

- Spray Head: EPSON L805 head, 6 nozzles \* 180
- Print Width: A3 size, supports both unidirectional and bidirectional printing
- Maximum Printing Width: 329mm
- Printer Dimensions: 53 \* 38 \* 15 CM
- Net Weight: 8.5 KG

- Printer Packaging Size: 60 \* 60 \* 27 CM
- Weight (Including Wooden Box): 19 KG
- Software Support: RIP 10.3

---

**Advantages:**

- **Self-Developed Motherboard:** Replaces the original EPSON motherboard to enhance performance
- **No EPSON Waste Ink Reset:** Eliminates the need for resetting waste ink, reducing maintenance complexity
- **Reliable Performance:** Prevents common sensor malfunctions and error flashing typically seen in EPSON machines
- **Continuous Roll-to-Roll Printing:** Enables continuous printing with no interruptions
- **Supports Single-Page Printing:** Versatile for both single-page and roll-to-roll operations
- **Automatic Cleaning System:** The ink pump can be cleaned without removing the film, simplifying maintenance
- **No Film Slippage:** Ensures consistent film placement during printing, regardless of the film thickness or whether it's double-sided matte
- **EPSON Structure Preservation:** Maintains the integrity of the EPSON structure without increasing printer size
- **White Ink Mixer:** Comes with a built-in white ink mixing system for automatic ink mixing at set intervals
- **Durable Packaging:** The printer is securely packaged in a steel plate box with space for one roll of 100-meter long PET film

Whether you are producing small batches or large orders, the A3 Roll DTF Printer delivers exceptional results with ease and efficiency. It is the ideal solution for any business looking to elevate their custom apparel printing capabilities.
